To whom it may concern:

Of the hundreds of people I worked with in the almost ten years I was with LaSalle Ext University, DAVE SPERRY provided one on the most enjoyable and rewarding associations I experienced. He is a very intelligent, perceptive and conscientious individual and in a field in which he had no previous experience, he rapidly "learned the ropes" and advanced into a position of regional manager, a position normally held by older more experienced people. He did a good job, in fact, I don't think I ever had anyone working for me who applied what he was taught to the precise degree that Dave did. In addition he put in long hours and displayed a strong desire to succeed.

I am pleased to have the opportunity and feel very confident in recommending Dave in what-ever line of endeavor he chooses, because I know he will give it "his all" which includes many fine qualities, not the least of which is an ability to deal with people on all levels very effectively. He will be an outstanding asset to any organization.

Sincerely,

Hal Reid
(former Zone Manager -
5 Southern states and
Puerto Rico for LaSalle
Extension University)
